## 11. Calculation of SGPA and CGPA

Degree will be based on SGPA and CGPA calculations since First Semester (Third semester in case of lateral entry students)

a) SGPA and CGPA will be calculated on the basis of the grades as detailed below

i) Conversion of Marks to Grades and Grade Points using Absolute Grading system.

- For each course taken, the student will be assigned with a grade based on the combined performance in all the assessments.
- Table -I shows the various grades, grade points awarded to students with mark range as indicated. Table-1: Award of Grades and Grade Points for Theory Courses

(a) Course/Subject carrying maximum 100 marks

Marks Range)	Grade	Grade Point	Performance
$X \geq 91$	O	10	Outstanding
$91 > X \geq 85$	A+	9	Excellent
$85 > X \geq 76$	A	8	Very Good
$76 > X \geq 66$	B+	7	Good
$66 > X \geq 56$	B	6	Average
$56 > X \geq 45$	P	5	Pass
$X < 45$	F	0	Fail
Absent	AB	0	Absent

X = Marks obtained out of 100

(b) : Course/Subject carrying maximum 50 marks

Marks Range(for Max 50 marks)	Grade	Grade Point	Performance
$X \geq 46$	O	10	Outstanding
$46 > X \geq 42$	A+	9	Excellent
$42 > X \geq 38$	A	8	Very Good
$38 > X \geq 33$	B+	7	Good

$46 > X \geq 42$	A+	9	Excellent
$42 > X \geq 38$	A	8	Very Good
$38 > X \geq 34$	B+	7	Good
$34 > X \geq 30$	B	6	Average
$30 > X \geq 25$	P	5	Pass
$X < 25$	F	0	Fail

X = Marks obtained out of 50

- Audit Course does not carry any credit, hence, will not be considered in the SGPA/CGPA calculation. But the grade card will reflect "Audit course" and will be awarded with grade as in Table-1(a or b or c). However, the student will have to pass the course with minimum required attendance and evaluation result to clear the semester.

ii) Obtaining Grade Point

- The academic performance of a student will be graded on Ten pointscale.
- The qualitative assessment of student's performance will be indicated by these grades.
- Each grade is associated with a grade point as listed in Table-1.

iii) Calculating SGPA and CGPA

- The grades upto "P" awarded to student in all the courses shall be converted into a Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA).
- The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

$$SGPA (S_i) = \frac{\sum (C_i \times G_i)}{\sum C_i}$$

Where  $C_i$  is the number of Credits of the  $i$ th course and  $G_i$  is the Grade point scored by the

student in the  $i$ th course.

- The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$CGPA = \frac{\sum(C_i \times S_i)}{\sum C_i}$$

Where  $S_i$  is the SGPA of the  $i$ th semester and  $C_i$  is the Total number of credits in that semester.

- The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

- iv) Incentive credits to the students participating in NCC/NSS/ Games & Sports/Cultural Activities/Curricular and Co-curricular Activities will be awarded as per the University prevailing ordinance"

## 12. Class/Division

The class/division in academic performance of the student for the complete duration of program to be classified as follows:

- a. First Class with distinction: CGPA 7.5 and above,
- b. First Class: CGPA 6.0 and above, but less than 7.5, and
- c. Second Class: CGPA less than 6.0

As per requirements, the conversion of the performance index CGPA into equivalent percentage of marks, the formula shall be used is-

$$\text{Percent marks} = (CGPA) \times 10.$$

### 13. Award of Merit Ranks

The students admitted to the programmes governed by this Direction on successful completion of the programme shall be eligible to be awarded a merit rank as per the general rules of the University in this regard.

### 14. Exit Policy for Failure/Dropout Students:

### **Guidelines for HONORS (MAJOR) & MINOR**

#### **For B.Tech. Programs of all the ~~Non-Autonomous~~ Engineering Colleges**

#### **1.0 PREAMBLE**

Apart from the minimum credit requirements as per the scheme of exam for the award of the undergraduate engineering degree, these Honors (Major), Minor Programs offered by RTMNU provide opportunities for supplementing the learning experience. These programs offered are in parent as well as in diverse areas. These credits when are in a focused branch would earn the students' credentials like Honors (Major)/Minor. Honors (Major) scheme aims for vertical knowledge growth in his/her own branch which may have research orientation while Minor scheme aims for additional knowledge in any other branch for enhancing the employability.

On successful completion of the requirements of Honors (Major), the UG student will receive B. Tech. (Honors) degree with the mention of Honors' specialisation. Similarly on successful completion of the requirements of minors the UG student will receive B. Tech. degree with the mention of minors' specialisation. Additionally, the concerned college shall also issue the certificate of completion of Honors (Major) or Minors.

Participation of students in these programs shall not be mandatory. Aspiring students will register for courses mentioned in the program and acquire 18 (minimum) to 20 credits. A student opting for 'Honors' will not be entitled to register for 'Minor' and vice-versa. It is expected that the students with good academic standing, utilize their surplus time for enhancing their academic learning experience and gain a wide exposure.

These schemes are implemented progressively from the batch of UG students admitted in 2020-21 onwards. No additional fee would be charged for Honors/Minor courses by the college or University. However, SWAYAM-NPTEL will charge the fees for proctored examination and certification.

#### **2.0 CREDITS to be earned by students for Honors (Major) / Minor degree**

Total credits to be earned for Honors (Major) or Minor will be 18 to 20 along with all the prescribed credits of the regular B.Tech. program in which he/she is admitted.

Examples:

- Student who has completed regular B.Tech. in stipulated time schedule and also earned all prescribed Honor (Major) or Minor credits at the time of declaration of final year result, is eligible to get regular + Honor (Major) or Minor degree.
- Student who has completed regular B.Tech. in stipulated time schedule but fail to earn all prescribed Honor (Major) or Minor credits at the time of declaration of final year result, is eligible to get only regular degree.

#### **3.0 DEGREE WITH HONORS, MAJOR & MINOR:**

Technically there is no difference between the Title, Scheme of Examination and Syllabus between Honors and Major programs as far as number of credits and syllabus is concerned. A student will be conferred with:

- Honors Degree (e.g., "**BE in Mechanical Engineering with Honors in Advanced Dynamics**") only if he/she is having a final CGPA of more than or equal to 7 in regular Program with no backlog in any semester, during the span of his/her degree (including Honors program).
- Degree with Major (e.g., "**BE in Mechanical Engineering with Majors in Advanced Dynamics**") if he/she is not having a final CGPA of more than or equal to 7 in regular Program and /or had backlog subjects, in any semester, during the span of his/her degree (including Major program).
- Degree with Minor (e.g., "**BE in Mechanical Engineering with Minor in Electrical Engineering**") if he/she is having a final CGPA of more than or equal to 7 in regular Program with no backlog in any semester, during the span of his/her degree (including Minor program).

**Note:** 1. It is expected that every department of the college/institution offering Major/Minor should appoint one Honors (Major)/Minor coordinator to help students sort out academic as well as administrative issues. Also, one Single Point of Contact (SPoC) be appointed at college/institute level.

2. The scheme shall ideally begin from the fourth semester of UG for the students admitted in the session 2020-21 onwards. However, it is flexible to the extent that student interested may start it from first semester also.
