Growth of Higher Education System: Some Statistics

The Commission is empowered under Section 12(h) and under Section 12(i) of the UGC Act, 1956 to collect information on all such matters relating to University education in India and other countries as it thinks fit, it may require a University to furnish it with such information as may be needed relating to the financial position of the University or the studies in the various branches of learning undertaken in that University, together with all the rules and regulations relating to the standards of teaching and examination in that University with respect to each of such branches of learning.

At the time of independence, there were only 20 universities and 500 colleges in the country with 2.1 lakh students in the higher education system. But, after independence, there has been a phenomenal growth in all these numbers. Now, it is a recorded fact that there is an increase of 30 times in the number of Universities, 74 times increase in the number of colleges, and the students enrolment has gone up to over 100 times in the formal system of higher education as compared to the figures of Independent Year of India. The phenomenal increase in enrolment of this order would not have been possible without the growth in the number of institutions of higher learning, both universities and colleges in particular and increase in intake capacity of courses. The increase in numbers of institutions and enrolment indicate that the target of 15% Gross Enrolment Ratio (GER) by 2012 set for the XI Plan has almost been achieved. The target of 30% Gross Enrolment Ratio (GER) has been set for the end of XII Plan (2017).

2.1 Institutions

At the end of X Plan (31.03.2007), there were 363 Universities (20 Central, 229 State, 109 Deemed and 5 Institutions established under Special State Legislature Acts) and 21,170 colleges in the country. At the end of XI Plan (31.03.2012), the number of Universities has gone up to 573 (43 Central, 129 Deemed and 397 State Universities and four Institutions established under Special State Legislature Acts) and the number of Colleges to 35,539, thus registering an increase of 58% in the number of Universities and 68% in the case of Colleges in comparison to the figures at the end of X Plan. Current number of universities is 605 (as on 31.3.2013) and the number of colleges is 37204.

So far as the number of Universities in states is concerned, the state of Tamil Nadu tops the list with Universities, followed by Uttar Pradesh & Rajasthan with 56 each and Andhra Pradesh (43) etc. and also one can observe from the **Table 2.2.** that there is uneven establishment of Universities in States.

However, the increase in the number of Colleges is varied amongst states as observed from the **Appendix VII.** Relatively speaking and in comparison to the absolute figures at the beginning of XI Plan (2007-2008), the state of Uttar Pradesh accounted for the highest increase with (2303) colleges, followed by Rajasthan (1576),

Maharashtra (1473), Andhra Pradesh (1286), Tamil Nadu (1113) etc. It is also observed that the growth in the number of colleges is almost minimal in all the States located in the North Eastern Region and a few of the Union Territories. The number of colleges as on 31.3.2013 stood at 37204.

As many as 1665 new colleges had been established during 2012-2013, thus taking the total number of colleges to 37,204 in 2012-2013 as against 35,539 colleges in 2011-2012, registering an increase of almost 4.68%.

To meet the XII Plan target of 30% Gross Enrolment Ratio, efforts have to been made to open more number of Universities/Colleges and also to increase the existing intake capacity of each course in every University/ College.

At the end of the financial year 2012-2013, the total number of colleges recognized under Section 2(f) of the UGC Act, 1956 was 8929 as compared to 8288 in the previous year. Out of these 8929 recognized colleges, 1481 colleges are still not eligible to receive Central Assistance under Section 12 B of the UGC Act, 1956.

The state-wise number of Colleges included under Section 2(f) and 12 B of the UGC Act, 1956, as on 31.03.2013, is as under:

2.2 Students Enrolment

During the academic year 2012-13, there had been 215.01 lakhs (provisional) students enrolled in various courses at all levels in universities/colleges and other institutions of higher education as compared to the revised figure 203.27 lakhs in the previous year, registering an increase of 5.77 per cent. The trend of students enrolment at the macro level in the last two decades is given in **Appendix-III**. Out of 215.01 lakhs, 93.06 lakhs had been women students, constituting 43.28 percent. The comparative trend of total students enrolment and enrolment of women students, among states, during 2012-13 has been indicated in **Appendix-IV**. The enrolment of students, in terms of absolute numbers, has been the highest in the state of Uttar Pradesh (33.65 lakhs), followed by Maharashtra (24.57 lakhs), Tamil Nadu (20.38 lakhs), Andhra Pradesh (20.14 lakhs), etc.

Stage-wise Enrolment

The enrolment position in the academic year 2011-12 reveals that majority of students in the higher education system had been enrolled for a variety of courses at the under-graduate level. The students at this level constitute provisionally 85.90% of the total number of students in colleges and universities put together. The percentage of students enrolled for Master's level courses (PG) had been 12.15% while a very small proportion i.e. 0.84% of the total number of students had been enrolled for research. Similarly, only 1.11% of the total number of students had been enrolled in diploma/certificate courses.

As regards the distribution of students enrolment between universities and affiliated colleges, the largest number of students in the higher education system had been enrolled in affiliated colleges. About 89.50% of all the under-graduate students and 72.35% of all the post-graduate students had been enrolled in the affiliated colleges, while the remaining had been in the universities and their constituent colleges. In contrast, 77.02% of the total research students had been in the universities. In diploma/certificate courses too, university departments/university colleges together had an edge over the affiliated colleges. However, the fact that majority of the total number of students enrolled in the affiliated colleges where the foundations of higher education are being laid, demands focus and greater financing to this college sector particularly with reference to promotion of relevance, access and equity, quality and excellence, etc. (**Appendix-V**).

Faculty-wise Enrolment

The distribution of students, across various faculties, during the academic year 2012-13 was as under:

Out of the total enrolment of students (215.01 lakhs), 37.94% students had been in the faculty of Arts, followed by 18.56% in Science and 17.50% in Commerce/ Management. Thus, 74% of the total enrolment had been in the three faculties of Arts, Sciences and Commerce / Management while the remaining 26.70% had been in the professional faculties recording the highest percentage in Engineering./Technology (16.05%), followed by Medical courses (3.52%), etc. . In a country like India, where Agriculture and allied occupations are the main occupations, the enrolment in Agricultural Courses had been just 0.48 percent and in Veterinary Science, it is miniscule 0.14 percent. Thus, it is evident from the faculty-wise distribution of enrolment that the

ratio of professional to non-professional enrolment has been almost 1:3 and hence there is a need for an appropriate policy change which may rationalize and reduce the disparity and need to focus on vocationalisation of education. **(Appendix-VI).**

2.3 Faculty Strength

In the academic year 2012-2013, the total number of teachers in universities and colleges was 9.51 lakhs as compared to 9.34 lakhs teachers in the previous year. Out of 9.51 lakhs teachers, 82.54% teachers were in Colleges and the remaining 17.46% in University Departments / University Colleges **(Appendices-VIII & IX).**

The category-wise position of teachers, in terms of percentages, in affiliated colleges and university departments/ university colleges during 2012-2013 is as under:

Table 2.3: Category-wise Number of Teachers: 2012-2013

S.N.	Category	Number of Teachers			
		AC	UTD/UC	AC + UTD/ UC (Total)	Percentage to Total
1.	Assistant Professors/Lectures	441070	72348	513418	55.48
2.	Lecturers (Senior Scale)	91386	18348	109734	11.85
3.	Readers/Associate Professors/ Lecturers (selection grade)	177733	39251	216984	23.45
4.	Professors & their equivalent	56667	28587	85254	9.22
	Total	766856	158534	925390	100.00

AC = Affiliated colleges

UTD/UC = University Teaching Departments/University Colleges

2.4. Research Degrees

The number of research degrees (Ph.Ds) awarded by various universities increased from 16,093 in 2010-2011 to 17631 in 2011-2012 thus registering an increase of 3.34%. Out of the total number of Ph.Ds awarded in 2011-2012, the Faculty of Science had the highest number with 5607 degrees, followed by the faculty of Arts with 5642 Ph.D. degrees. These two faculties together accounted for 63.89 per cent of the total number of Ph.D. degrees awarded. In the professional faculties, the faculty of Engineering & Technology had topped with as many as 2098 Ph.D. degrees, followed by Education faculty with 617 degrees, Medicine faculty with 617 degrees, Agriculture faculty with 564 degrees, etc. It is observed that there is a slight increasing trend in academic research in terms of number of research degrees awarded by the Universities during 2011-2012 **(Appendix-X)** as compared to the figures for the year 2010-2011. As compared to the total enrolment for the year 2011-2012, the number of Ph.Ds. produced had been to the extent of slightly higher than 0.1% only. Therefore, promotion of research needs to be addressed more vigorously by providing funds to the institutions.

2.5 Growth in Enrolment of Women in Higher Education

There had been a phenomenal growth in the number of women students enrolled in higher education, since independence. The women enrolment which was less than 10 per cent of the total enrolment on the eve of Independence had risen to 43.28 per cent in the academic year 2012-2013.

The pace of growth has been particularly faster in the last two decades. As the data in **Table 2.4** show that the number of women enrolled per hundred men registered more than five times in 2012-2013 as compared to 1950-1951.

Table 2.4 : Women Students Per Hundred Men Students

Year	Total Women Enrolment (000s)	Women Enrolment Per Hundred Men
1950-51	40	14
2012-13	9306	76.31

2.6 Distribution of Women Enrolment by State and Faculty

(a) State-wise Distribution of Women Enrolment

During 2012-13, distribution of women enrolment by state shows that the percentage increase has been almost minimal in the enrolment of women as compared to the total enrolment in all the states over the preceding year. Among the states, Goa with 60.31% topped in terms of women enrolment as a percentage of total enrolment of the state followed by Daman and diu (59.11%), Andaman and Nicobar islands, Kerala (58.24%), Meghalaya (53.82%), Himachal Pradesh (51.16%) etc. There are 17 states which had higher enrolment of women than the national percentage of 43.86%. During the year 2012-2013, the UGC initiated a concept of Meta University: The main purpose of the Meta University is to share learning resources by different Universities by using latest technologies available in order to enable students to benefit from learning resources available in different institutions. Meta Universities

represent 2nd Generation Universities, free from physical boundary conditions and are able to operate in virtual space, taking advantage of the innovation and flexibility possible in such domains.

The University of Delhi and Jamia Millia Islamia have started a course on “Master’s of Mathematics Education” 2012-2013 under the Meta University concept.

Development (Plan) and Maintenance (Non-Plan) Assistance to Colleges

4.1 Thrust of Eleventh and Twelfth Plan for the Development of Colleges

Development of Colleges, which are responsible in a major way for undergraduate education and to a great extent even for postgraduate education, is an important sector in Indian higher education from the point of view of maintenance of proper standards, ensuring optimum utilization of facilities, promoting innovation and change, linking education to emerging career patterns, access, equalization of educational opportunities for the weaker sections of society, particularly the Scheduled Castes/Scheduled Tribes and those belonging to the educationally backward areas. The focus of development assistance to the colleges is on supporting the teaching-learning process by upgrading basic infrastructure like library, laboratory, connectivity, etc. However, the emphasis is on the expansion and consolidation of facilities in the existing institutions, improvement of standards through modernization, rationalization and diversification of under-graduate courses especially to relate them to career opportunities. The State Governments are expected to bring non-viable colleges with low enrolment and inadequate facilities into one conglomeration so that developmental needs can be addressed by the Commission. Setting up new colleges in educationally backward areas where adequate facilities do not exist, is also one of the important areas to be addressed by the Commission during XI Plan.

In addition to the basic developmental assistance, several schemes of X Plan were merged with the General Development Grants Scheme of XI Plan. The allocation for these merged schemes was made in addition to the General Development Grants, while deciding the Development Grant for the XI Plan. These schemes were:

- a. Rejuvenation of Infrastructure in Old Colleges.
- b. 'Catch-up' grant for Young Colleges.
- c. Colleges located in Rural/Remote/Border/Hill/Tribal Areas.
- d. Colleges with relatively higher proportion of SC/ST/OBC(Non-creamy layer) and Minorities.
- e. Special grant for Enhancement of Intake Capacity in Colleges.
- f. Establishment of Day Care Centres in Colleges.
- g. Colleges in Backward Areas.
- h. Establishment of UGC-Network Resource Centre (UGC-NRC).
- i. Equal Opportunity Centres in Colleges.
- j. Remedial Coaching for SC/ST/OBC (Non-creamy layer) & Minorities.
- k. Coaching for NET for SC/ST/OBC (non-creamy layer) & Minorities.

- l. Coaching class for entry in services for SC/ST/OBC (non-creamy layer) & Minorities.
- m. Schemes for Persons with Disabilities.
- n. Career and Counseling Cell in colleges.

During XI Plan, the General Development Grants scheme to colleges were implemented with the following objectives:

- To provide grants to the colleges for strengthening basic infrastructure and meet their basic needs like books & journals including book banks, scientific equipment, campus development, teaching aids and sports facilities.
- To provide assistance for extension/renovation of existing Buildings and construction of new buildings.
- To provide assistance to the colleges catering to the needs of the students belonging to the Scheduled Castes/Scheduled Tribes/Other Backward Classes (non-creamy layer)/Minority Communities as well as Physically Challenged and economically deprived students coming from families Below Poverty Line (BPL) as per definition adopted by the State Government/UT/Central Government concerned.
- To provide special remedial coaching to academically poor performance so that they graduate as confident men and women.
- Development of colleges situated in educationally backward areas / rural / border/ hill /remote / tribal areas to remove regional imbalances and disparities.
- To provide facilities for women, like common room and toilet facilities.
- To provide grant for the rejuvenation of Old Colleges and 'Catch-up' grant to Young Colleges.
- To encourage outreach activities, adult and continuing education in the neighbouring areas so that the society as a whole, where the college is located, is benefited.
- Capacity building initiatives (starting of new courses and increasing the intake capacity of existing courses).
- To support competence building initiatives in colleges, especially for teachers.
- To encourage introduction of various alternatives in the internal examination system and to accommodate innovative ideas to influence teaching, research, academic excellence and societal growth.

The assistance will be provided to only those colleges which have been included under Section 2(f) and 12(B) of the UGC Act and fulfill the eligibility conditions as per the guidelines for XI Plan period. XII Plan lays special emphasis, among others, on increasing the gross enrolment ratio (GER) from 15 % to 30%. For this, colleges have to play a very crucial role by expanding enrolment significantly, not losing sight of quality control and consolidation.

4.2 Colleges Recognized by UGC for Financial Assistance

While the students would get an opportunity to avail themselves of such sports facilities, this scheme specially aims to serve the first generation students both in urban and rural areas.
- (b) Students, depending upon their level of 'attainment' in a particular sport, may be offered opportunities to participate in more advanced level of sport in the same or related area through the availability of better equipment and infrastructure.

- (c) Infrastructure, where already available is intended to be improved/strengthened. Universities and Colleges will be assisted in creation of such standard infrastructural and nonexpandable equipment facilities so as to facilitate the conduct of such activities for their students.

10. One Time Catch-up grant to Uncovered (Non-12 B) Colleges

There are nearly 8800 colleges, mainly undergraduate ones, affiliated to state universities which are technically under the purview of the UGC, but do not get development grants from the UGC as these colleges do not meet the minimum eligibility norms in terms of physical facilities and infrastructure. Therefore, these colleges are not included under Section 12B of the UGC Act. Under the Eleventh Five Year Plan, the UGC has evolved a scheme to provide one-time catch-up grant to a large number of such colleges, especially in under-served areas, which have been thus far precluded from the UGC development grants on account of gaps in their infrastructure and quality.

The amount of grants paid by the UGC Regional Offices including NRCB under this scheme during 2012-13 is as follows:

They include all such castes, races or tribes, which have been declared as SC and ST under the provisions of Article 341 and Article 342 of the Constitution of India. The scheme aims to encourage access of students belonging to SC/ST/Minority communities, OBC(non-creamy layer) students, students facing financial constraints and physically challenged (differently abled) students.

(d) Colleges in Educationally Backward Areas

Districts having overall literacy rates below the national average were identified as educationally backward. However, it has been found that the single indicator of literacy does not capture the complexities of educational backwardness in general and higher education in particular. A new parameter has now been used in order to identify educationally backward districts in the country, which will be more sensitive from the point of higher education. This is: Gross Enrolment Rate (GER) in higher education = All enrolled in post higher secondary classes to total population in 18-23 age group.

A college located in the district where the GER is less than the national average is to be treated as a backward area college. The objective of the scheme is to provide assistance for development of infrastructure and

teaching learning resources to colleges located in educationally backward districts, thereby giving the eligible population access to better opportunities in higher education.

The ceiling of assistance under this scheme will be ₹12.00 lakhs.

(e) Colleges located in Rural/Remote/Border/ Hill/Tribal Areas

The access of students from rural areas as well as those identified as remote/border/hill/tribal area need to be improved at a fast rate - that is the demand of 'Inclusiveness'. The absence of proper transport facilities - a difficulty generally not faced in urban areas - is a primary deterrent. Teachers and students alike face difficulty and often have to spend a considerable time in commuting. Therefore, the primary requirement would be adequate teachers' quarters and students' hostel. Since it may not be possible to provide residential accommodation to all the students, a conveyance allowance (maximum of ₹500/- p.m.) may be given to students coming from a distance of 10 kilometers and above from the College. The scheme aims to reduce locational disparities and increase access to higher education by providing residential accommodation for students and teachers on rental basis, development and implementation of location specific curricula and conveyance allowance to deserving students of colleges located in Rural/ Remote/ Border/ Hill/Tribal Areas.

The college would be eligible for up to ₹10.00 lakhs for the following :

1. Accommodation for teachers/students on rental basis.
2. Providing conveyance allowance (maximum ₹500/- per month for those covering the maximum distance) to students (no conveyance allowance will be provided during vacation/leave/recess which exceeds one week).

3. Developing and implementing location-specific curricula.

(m) Career and Counseling Cell in Colleges

The scheme of establishing a Career and Counseling Cell in Colleges has been formulated to address the diverse socio-economic challenges and geographic backgrounds of the heterogeneous population of students coming to the Colleges vis-à-vis equity of access and placement opportunities through availability of appropriate institutional support information. Linguistic differences and cultural gaps among students also call for the setting up of placement cells. Availability of relevant and accessible information coupled with professional guidance to utilize the same can result in better career achievements outside the classrooms and help in the healthy progression of students. In each College, curricular inputs are important. Relevant information on courses and combinations on offer with freedom of choice is generally available and counseling is informally given as a support service. The conventional information system comprises a copy of prospectus that contains a list of courses and combinations, entry rules, fee structure, examination schedule etc. in a routine repetitive manner year after year. But now with the change in scenario, not only the academic content and its rules have become oriented towards the market needs but one has also to address social disparities and career opportunities that education has to offer. The conventional information system is now to be supplemented with active guidance and information technology that is fast replacing the print media with a system that can quickly retrieve information details for the benefit of all concerned.

During the XI Plan period the following financial assistance is provided under the scheme :

5.7 Autonomous Colleges

The 1964-66 Education Commission pointed out that the exercise of academic freedom by teachers is a crucial requirement to the development of the intellectual climate of our country. Unless such a climate

prevails, it is difficult to achieve excellence in our higher education system. As students, teachers and management are co-partners in raising the quality of higher Education, it is imperative that they share a major responsibility and hence the Education Commission (1964-66) recommended Autonomy to the colleges. College autonomy, in essence, is the instrument for promoting academic Excellence.

Objectives and salient features:

An autonomous college will have freedom to:

- Prescribe rules for admission in consonance with the reservation policy of the State Government;
- Evolve methods of assessment of student work, the conduct of examinations, and notification of results;
- Use modern tools of educational technology to achieve higher standards and greater creativity.
- Promote healthy practices such as community service, extension activity, projects for the benefit of the society at large neighborhood programmes, etc.
- Determine and prescribe its own courses of study and syllabi; restructuring & redesigning of courses to suit local needs.

The scheme of autonomous colleges was formulated by the UGC during the Fourth Five year Plan (1969-73) in pursuance of the recommendations of Education Commission (1964-66).

All Colleges which are included in the list maintained under Section 2(f) & 12(B) of the UGC Act and with 10 years of existence are eligible for grant of autonomous status. The status of autonomy is granted initially for a period of six years as per the XI Plan Guidelines of the Scheme. The autonomy tenure shall be extended for a cycle of six years based on a review of the working of the autonomous colleges.

Procedure for applying:

The UGC will invite proposals from eligible colleges seeking autonomous status are involved, once in an academic year in September/October. The individual university can also send circulars asking the colleges to apply

Further the Commission revised the guidelines for NAAC/NBA to Autonomous Collegew.e.f. 04th May,2011 which reads as under:

The Commission has decided that a constituent college may be undergo a separate accreditation by NAAC for the purpose of granting autonomy to it unless the NAAC report specifically mentions the names of the constituent colleges that have been covered along with the accreditation of the parent university.

Further the Commission revised the guidelines for NAAC/NBA to Autonomous Collegew.e.f. 17.12.2012 which reads as under:

The Commission has decided that NAAC accredited colleges should have a minimum of B Grade accreditation. The Commission further decided that in respect of Engineering/Technical/Management colleges, NBA accreditation should be insisted for at least three courses while considering them for fresh/extension of autonomy tenure.

Procedure for approval by the UGC:

The Commission revised the guidelines for granting of fresh autonomous status to Autonomous Collegew.e.f. 19th May 2009 which reads as under:

The Commission further reviewed the present procedure for fresh proposals and resolved that an Expert Committee may be constituted for all fresh cases with representation of University and State Government nominees. The existing procedure of Screening Committee may be scrapped and the Chairman may constitute an Expert Committee for on the spot inspection for consideration of each proposal.

The candidates with higher merit who qualify for JRF in the UGC-NET, can pursue research in the UGC recognized universities and institutions. They are also eligible for lectureship. Similarly, the meritorious candidates can qualify for award of JRF in core science subjects through Joint CSIR-UGC NET. UGC awards 1200 fellowships under this scheme in each test. Fellowship is available for a maximum period of five years.

University Grants Commission awards upward of 3200 fellowships in each UGC-NET. In the UGC-NET held in June 2012, 5310 candidates were declared eligible for Junior Research Fellowship, while in UGC-NET held in December 2012, 3669 candidates qualified for the award of JRF. The number of fellowships allocated was unusually high in June 2012 UGC-NET due to declaration of supplementary result on the basis the recommendations of the Committee set up by the Commission.

Paper-III, which is subject specific, was being conducted through the descriptive mode till December 2011 UGC-NET. The University Grants Commission switched over to the objective mode even for this paper from June 2012 UGC-NET onwards.

During the year 2012-2013, an expenditure of ₹ 30,54,88,054/- was incurred on conducting UGC-NET and on all ancillary activities of the NET Bureau. This excludes the expenditure incurred on payment of salaries to the regular employees of UGC posted in the NET Bureau.

Concessions / Relaxation provided to the Under-Privileged Categories

i) In Fee

In conformity with the policy of Government of India, the University Grants Commission has been giving considerable concession in fee for applying in UGC-NET to all under-privileged sections of the society. While the fee for candidates belonging to the General category is ₹ 450/-, it is only ₹ 225/- for OBC candidates as per the Central Government list who are not covered under the creamy layer. The candidates belonging to the Scheduled Castes and the Scheduled Tribes and the persons with disability (PWD) are required to pay a nominal fee of ₹ 110/- only.

ii) In Age (for JRF)

The upper age limit for the General category in order to appear in JRF is 28 years. A relaxation of up to 5 years is provided to the candidates belonging to SC/ST/OBC(Non-creamy layer)/PWD categories and to women applicants.

iii) In Eligibility Conditions (for NET)

1. GENERAL & OBC(NCL)Candidates	55% mark in Master's Degree (without rounding off)
2. SC/ST/PWD Candidates	50% mark in Master's Degree (without rounding off)

iv) In Qualifying Criteria (for NET)

The candidates are required to obtain the following minimum marks separately in Paper-I, Paper-II and Paper-III to be considered for final preparation of result as presented in Table IV

Table IV : Category-wise minimum marks required in each Paper to be in Consideration Zone for preparation of result

CATEGORY	Minimum Marks (%) to be obtained		
	PAPER – I	PAPER – II	PAPER– III
GENERAL	40 (40%)	40 (40%)	75 (50 %)
OBC (Non-creamy layer)	35 (35%)	35 (35%)	67.5 (45 %) rounded off to 68
PWD/SC/ST	35 (35%)	35 (35%)	60 (40 %)

As is apparent, the minimum required marks for OBC, SC, ST and PWD categories in NET are lower than that for the General category. Even, while compiling the result for Junior Research Fellowship (JRF), this principle is kept under consideration and it is ensured that the subject-wise final qualifying cut-offs for the under-privileged categories are lower than that for the General category.

Initiatives to Promote Transparency

The University Grants Commission, in its constant endeavour to promote transparency, undertook various measures to make the examination and evaluation process more interactive and less prone to subjectivity. These measures are outlined in the following paragraphs:

- a) Paper-III, which was descriptive in nature till Dec. 2011 UGC-NET, was converted to objective mode from June 2012 UGC-NET onwards. This ensures parity in evaluation and obviate any possibility of subjectivity in assessing the scripts.
- b) The candidates were not allowed to carry away the question papers with them till UGC-NET held in December 2011. In consonance with its policy of openness, UGC took a decision to permit candidates to take away the question papers from June 2012 UGC-NET onwards.
- c) UGC modified its OMR Sheet in order to accommodate a carbonless copy of sheet with it. The candidates can take the carbonless copies of OMR sheets with them from June 2012 UGC-NET onwards.
- d) Since June 2012 UGC-NET, the answer-keys of all the question papers are in public domain as they are uploaded on the UGC website. The candidates, having access to answer keys, question papers and carbonless copies of their OMR sheets, are enabled to check their answers. Online feedback is being invited from candidates for more than a week regarding any discrepancies in the questions or any incorrect answers after uploading the answer keys and question papers. The feedback received from the candidates is being re-examined by the expert committees and answer keys get updated accordingly. The result is being prepared on the basis of updated answer keys.

State Eligibility Test (SET)

In accordance with the mandate of the Government of India through its notification dated 22-07-1988, UGC, on request of State Governments, proposed to have State Level Eligibility Test (SLET), now known as State Eligibility Test (SET) duly accredited by UGC for a fixed term. The pattern of SET is same as that of NET conducted by UGC.

In response to the proposal of some states/group of states to conduct SET, University Grants Commission grants accreditation to them for conducting SET for Lectureship Eligibility only after examining their proposals. The performance of SET agencies is reviewed periodically by UGC with the help of experts and their accreditation is renewed for a fixed period. The Head of UGC-NET Bureau is the permanent member of the Steering and Moderation Committees of the SET agencies, which are constituted to exercise overall supervision in conducting the tests and declaration of results.

The candidates who have cleared the State Eligibility Test (SET), accredited by UGC for Lectureship prior to 1st June 2002, are exempted from appearing in the NET. For SET scheduled in or after June 2002, the qualified candidates shall be eligible to apply for the post of lecturer only in the universities/colleges situated in the

state from where they have cleared their SET. However, such candidates are also eligible to apply for NET, if they so desire.

7.3 Capacity Building of Women Managers in Higher Education

Women academicians all over the world, particularly in management, are heavily under-represented in the University system, and male culture still prevails. As women climb up the ladder, their proportion decreases considerably even though a large pool of women is 'waiting in the wings to go up' because of the increasing number of women academicians being recruited in the last few decades. It is, therefore, essential to build a critical mass of trained women, competent to hold senior administrative positions, shoulder to shoulder with men, to help the process of removing this gender barrier.

The overall goal is to facilitate the constituencies of women faculty, administrators and staff within the higher education system to increase the participation of women in higher education management for better gender balance, to sensitize the higher education system through policies and procedures which recognize women equity and diversity and to involve the women capable of becoming administrators for the qualitative development of higher education.

35 Sensitization/ Awareness/Motivation (SAM), 3 Training of Trainers (TOT) and 9 Management Skills Enhancement Module (MSEM) workshops have been organized during 2012-13 under this scheme.

The Govt. aided Institutions covered under Section 2(f) & 12B of UGC act, 1956 are eligible to get UGC financial assistance.

Due to increase cost of boarding & lodging, budget for each workshop has been increased w. e. f. 2009-10. Workshop for Refresher Course and Impact Studies were also approved by the University Grants Commission.

The revised pattern of funding is as under:

Type of workshop	Metro City (₹)	Non-Metro City (₹)

Sensitization Awareness Motivation (SAM) Non-Residential workshop	2,26,600/-	2,23,300/-

8.3 Establishment of Centres in Universities for study of Social Exclusion and Inclusive Policy

Introduction

Social exclusion not only generates tension, violence and disruption but also perpetuates inequality and deprivation in Society. In India, certain communities such as Scheduled Castes, Scheduled Tribes and religious minorities experience systemic exclusion in the matter of taking advantages of development. Social exclusion is a complex and multidimensional concept having social, cultural, political and economic ramifications. The consequences of macroeconomic policies such as poverty, unemployment and involuntary migration exclude the victims from economic, cultural, and political activities. The primary space where 'exclusion' can be studied, understood, and first transcended, are our universities, which can and must act as a beacon for society. The UGC has therefore decided to support research on the issue of social exclusion, which has

theoretical as well as policy importance. The idea is to establish a number of teaching –cum-research Centers in Universities to pursue these themes.

Objectives

- (a) Conceptualizing discrimination, exclusion and inclusion based on caste/ethnicity/and religion.
- (b) Developing understanding of the nature and dynamics of discrimination and exclusion.
- (c) Contextualizing and problematizing discrimination, exclusion and inclusion;
- (d) Developing an understanding of discrimination at an empirical level.
- (e) Formulating policies for protecting the rights of these groups and eradicating the problem of exclusion and discrimination.

Functions

- Teaching Courses at the M.A and M.Phil levels, leading eventuality to full-fledged M.Phil and even M.A programmes in Social Exclusion Studies;
- Undertaking M.Phil and Ph. D. supervision
- Undertaking empirical studies with theoretical perspective and build time series data bank for comparative studies and policy/programmes evaluation.
- Carrying out detailed rigorous analyses based on the socio-economic data generated by government agencies.
- Organizing conferences, seminars and symposia on the theme of Social Exclusion.
- Publishing regularly the research findings of the faculty and students.
- Organizing public lectures on the subject by eminent scholars.
- Reaching out to scholars, especially young scholars, in other universities and colleges through an active programme of inviting Visiting Faculty.
- Establishing links with Civil Society Organizations engaged in combating Social Exclusion
- Conducting short-term Orientation courses for political leaders, Parliamentarians, government officials, trade unionists and media personalities.

India has produced great thinkers and social leaders who, by their revolutionary and path breaking thoughts and actions, have left a lasting impact not only on India, but the world as a whole. They have developed indigenous ideas and have provided cultural and ethical identity to India. There is a great need to acquaint the

teachers and students with their thinking and work and to involve them in studies, research and field work based extension service programmes of constructive work.

The scheme of Epoch Making Social Thinkers of India (Special Studies) was initiated by the UGC in the year 1983.

It was decided to limit the number of studies centres upto two at each University/College.

8.5 Lifelong Learning & Extension Programme

In order to undertake the nation-wide programme of eradication of the illiteracy from the country, the University Grants Commission, since 1978, has been implementing various programmes in Higher Education System namely National Adult Education Programme (NAEP-1978 to 1983), Adult Continuing Education Programme (ACEP-1983-1990), 16/20 Pint Programme of Government of India (1983 to 1989), Area Based Approach Programme (ABAP-1989 to 1992), Total Literacy Campaign Programme (TLCP-1992 to 1997), and 9th Plan and 10th Plan Programme of Adult, Continuing Education and Extension & Field Outreach (ACEEFO 1997-2002 and 2002-2007) by involving the centres/department of Adult Education of Universities/Institutions. These Institutions, in turn involving students and teachers, have organized programmes, such as, Post literacy; Continuing education, Science for people, Environment education, Legal Literacy and Technology Transfer.

The approach during the XI Plan was not only to continue the ongoing programmes initiated during the earlier Five Year Plans but also to consolidate them and expand them to cover new universities and select colleges. All the different programmes initiated earlier under various terminologies viz; Adult Education, Continuing Education, Extension, Population Education, Student Counseling, Placement Services and e-learning were reformulated and developed as LIFELONG LEARNING Programmes so as to bring them in tune with fast expanding global knowledge scenario. Since Lifelong Learning has become a fundamental goal of recent educational policies often advocated as a way to achieve socio-economic development and a tool for promoting knowledge based society, the UGC extended its support to this area during the XI Plan.

71 Universities have been benefited during 2012-13 under the scheme Lifelong Learning & Extension.

Govt. aided Institutions covered under Section 2(f) & 12B of UGC act, 1956 are eligible to get UGC financial assistance.

Grant paid 12th Plan 2012-17 (2012-13) : ₹2.31Cr.

8.6 Human Rights Education (HRE)

The UGC introduced HRE Scheme during 1985. The violation of rights could be corrected only when the privileged persons are reminded of their duties towards the marginalized Section and the marginalized section are gradually empowered through rights education. HRE at these levels would extend to such areas as gender equity, caste and community relation, majority-minority conflicts, 'forward-backward' dilemma and North-South power relations. In short, all power relations have to be humanized and demoralized through restructuring of rights and duties.

- (i) One of the objectives is to create awareness and commitment to values where the individualistic self-interest is properly reconciled with the collective and common good.
- (ii) There has to be a debate on universal values and relativistic values that are culturally determined. The search for universal values assumes added importance in a globalizing but fragmented world.
- (iii) Values like pluralism, respect for all religious, scientific temper, open mind, public reasoning, all of which have been part of long Indian traditions, will have to be sustained and promoted.

It is necessary to recognize that development needs and equity concerns should go hand in hand. Any level of material development will not lead to human happiness unless it values human life and provides the conditions for fuller realization of the human potential. Human being is both a subject and an object of development.

The institutions covered under Section 2(f) & 12-B of UGC Act are eligible to get UGC financial assistance.
